**FOR IMMEDIATE RELEASE**

**CR MEYER RANKS IN THE TOP 10  
NATIONALLY FOR PULP AND PAPER MILLS**

**October 1, 2007 (Oshkosh, Wis.)** – According to the September 24, 2007, issue of Engineering News-Record (ENR) magazine, CR Meyer is ranked in the number two position for the top 10 contractors in pulp and paper mills in the United States. CR Meyer also ranked 17<sup>th</sup> for contractors in industrial process industries with heavy industrial revenues of \$188 million for 2006.

ENR attempts to bring structure to an otherwise huge and chaotic industry by performing their annual survey and ranking companies engaged in general contracting, specialty contracting, engineering, architecture, planning, and studies. The rankings are based on annual revenue and are further divided into specific market categories. ENR Sourcebooks take that market analysis to a more detailed level by ranking industry leaders in particular market subsets, such as pulp and paper.

Headquartered in Oshkosh, Wisconsin, CR Meyer is a unionized, industrial general contractor established in 1888. CR Meyer's mission is to continue a legacy of true integrity and paramount quality through visionary and expertly-guided construction solutions for clients with a focus on the pulp and paper and other heavy industry. They cultivate this mission starting with their number one value: a relentless attitude toward safety. With eight additional satellite offices located throughout the United States, CR Meyer's annual workforce averages 800 to 1,000 employees nationwide.
